

# ULTEIG ENERGY STORAGE: ENSURE THE ENERGY SUPPLY MEETS YOUR DEMANDS.

Ulteig

Ulteig offers a wide range of forward-thinking storage services. From helping clients understand the use cases for energy storage and providing vendor-agnostic engineering services to overseeing the project delivery and testing the functionality of systems. Our team is uniquely qualified to deliver comprehensive revenue-generating storage technologies that can be leveraged across the entire energy supply chain. Whether it's a new site or a retrofit, Ulteig lends expertise in every project stage while ensuring seamless integration across phases.

## ENERGY STORAGE SOLUTIONS FOR EVERY PROJECT PHASE

**We provide certainty around energy storage development and investment decisions.**

- Modeling and studies
- Business case development
- Owner's engineer support
- Interconnection and permitting
- Technical bid support
- Decision making road map (Siting, Application and Size)

**Our experienced multi-discipline teams deliver context-sensitive designs to meet your unique needs.**

- Conceptual design
- Balance of plant/system engineering
- High-voltage engineering
- Owner's engineering
- EPC support
  - Permitting
  - Environmental
  - Survey & staking
  - Procurement & logistics

**We've completed 10+GW of utility-scale SCADA design, programming, and commissioning across North America.**

- Use-case consulting
- AC/DC coupled & stand-alone
- Plant-level PV & storage integration
- SCADA
- Power plant control
- Performance & financial reporting
- Commissioning
- Networking & NERC/CIP security
- Hardware & software supply

**We align with our clients' requirements and objectives to ensure safe and timely project delivery.**

- Project and construction management
- Equipment FAT support
- Testing and commissioning (third-party)
- Asset management
- Analytics
- O&M
- Construction surveying
- Environmental monitoring
